

## What is Travel Training?

Travel Training is a service that enables people to use public transport independently, whether they are a new user or would like to use it more often. If you want to catch public transport to travel to work, study or school, go shopping, visit the doctor or see friends, Easy Transport can help you develop the confidence and skills to make it happen.

### You can learn about:

- catching trains, buses and ferries
- buying tickets and using Opal cards
- how to plan trips
- which services to catch
- where to get on and off
- accessible services
- travelling safely
- strategies to deal with difficulties
- where to find more information.

## Who is it for?

The service is for adults and children. It is available for anyone who does not have the confidence, information or experience to use public transport.

### You may be:

- an older person
- someone who has moved to a new area
- someone who is driving less or has stopped driving
- a migrant or refugee
- a person with a disability
- someone with limited mobility
- a school leaver or changing schools
- a carer of someone who needs to use public transport
- of Aboriginal or Torres Strait Islander origin
- financially disadvantaged.

## Your situation

A travel trainer will discuss your public transport needs and plan a trip with you. The service is personalised and flexible, enabling you to deal with any challenges, and matched with the best transport options available.

### The trip

The travel trainer will travel with you on your practice trip. More practice sessions can be arranged, if needed.

### Back home

After the trip, the travel trainer will review it with you. There is the opportunity for changes to the travel plans. You will be given the information needed to travel on your own and plan trips for yourself in the future.
