<p>No. of participants:</p> <p>Level: <b>Advance level</b></p> <p>Topic: <b>Introducing health service practitioners and providers in NSW</b></p>	
<p><b>Lesson aims:</b> By the end of the lesson participants should be informed about a range of health service practitioners and providers in NSW and know how to access them.</p>	
<p><b>Specific learning outcomes:</b></p> <p>By the end of the lesson, participants should be able to understand and say the following key vocabularies:</p> <ul style="list-style-type: none"><li>• GP</li><li>• Specialist (Doctors and Nurses)</li><li>• Public dental/hospital</li><li>• Bulk billing</li><li>• Referral letter</li><li>• Interpreter</li><li>• Community health</li><li>• Refugee health</li><li>• Early childhood health</li><li>• Youth health</li><li>• Mental health</li></ul>	<p><b>Assessment methods:</b></p> <p>Facilitators to listen to participants' pronunciation and check understanding on key vocabularies related to health services in NSW.</p>
<p><b>Previous knowledge assumed:</b> Intermediate</p>	
<p><b>Materials and equipment required:</b> Whiteboard, markers, <b>"Health Service Providers"</b>, <b>"Making health apt and buying medicine"</b> and <b>"Important Health Numbers"</b> handouts</p>	
<p><b>Room layout:</b> O shape</p>	
<p><b>General notes on differentiation / learning styles:</b> facilitating techniques involve auditory, visual and kinaesthetic methods. Role play is optional so "shy" participants are catered for.</p>	
<p><b>Anticipated problems and solutions:</b></p>	

- **Some participants may have difficulty understanding the explanations in the text boxes**
  - Facilitators to go through each “difficult” words in each boxes. Go a bit slow so everyone understands.
- **Some participants may have difficulty understanding the concept of “GP” and “Specialist”**
  - Provide many examples of Specialists eg. Optometrist (“eye doctor”), Dentist (“teeth doctor”), Cardiologist (“heart doctor”) etc
- **Some participants may have difficulty understanding the concept “public” hospital**
  - Facilitators can contrast the word public with “private”, or public = free; private = pay. Facilitators can also give examples of public and private hospital.
- **Some facilitators may have difficulty pronouncing the “th” in health, “sts” in specialists, “bulk”, “referral”, the “wives” in midwives, “immunisations”, “reproductive”, “menstrual”, “confidential”, the “ture” in torture, and the “trau” in trauma.**
  - Model and drill the pronunciation many times
- **Women participants may feel embarrassed when talking about women’s health – cultural and religious awareness**
  - **Separate the women from the men** – in different room if possible, if not the furthest space you can find. **Think about the best place and ways** to explain to the women in the most **discrete and cultural-appropriate** way as possible.
