There are presently 3,700 unaccompanied minors in Greece with more than 2,300 living in precarious conditions. Many of these minors have endured horrific and traumatic journeys, only to find themselves in Greece without shelter, protection, or the means to survive.

Registration  
Once refugees and asylum seekers have been detected or picked up by authorities, they are sent for registration, but the process is chaotic and inadequate.

The life of an unaccompanied minors is at times discouraging, and hard, filled with hazards, risk and frustrations. Nevertheless, if we choose to journey with them, if we choose to engage in this issue, and if we choose to act justly on their behalf, we can provide them with hope and with the chance of a future filled with opportunity.
