

# Refugee Prayer

## By Captain Sandra Pawar

Faithful and Loving Father,

We bring before you the many millions of refugees around the world who are suffering at this very moment. Those who have left family and friends and all things familiar in order to find safety in another land. We cannot even comprehend their pain at this moment or the sense of loss and grief they feel. But Lord, you know! You know their names, you are familiar with their stories, you know their faces and you know what they are leaving behind. Father, pour out your spirit of comfort on them. Heal their breaking hearts, and soothe their often silent cries. We pray you bring supernatural comfort, healing and restoration upon each person.

We pray that you open impossible doors, that you provide protection in their travels, we pray that you be their provision along the way and that you be their guide, their sustainer and their provider.

We ask that you raise up thousands upon thousands of people around the world who would be willing to pray and work towards the freedom and protection of refugees. We pray that you would cause political powers around the world to have compassionate hearts and make decisions that are of benefit to refugees and not to their detriment. We pray for the provision of shelter, food and safety for refugees around the world and for communities to gather around them and support them.

Help us to notice those in our communities who are from refugee backgrounds and who need us to reach out to them. Open up doors of opportunities to serve them and show us ways that we can help them to know they are valued and loved.

In Jesus mighty name

Amen
