# How to make a Cross/Box

1. Draw and cut out your shape using the template. (You can make it bigger or smaller if you wish by changing the dimensions)
2. Score with a pen or pencil each fold line.
3. Glue on (spay adhesive is recommended) Christmas paper to both sides of the cross shape. Trim to the shape of the cross.
4. Write or glue letters to the internal squares of the cross box to read **God's** (vertical) **Son** (horizontal)
5. Fold the cross shape up to create a box with the letters inside and tie up with a ribbon.
